

## To add grandparents/nanny's/etc to the team page

Log onto Demosphere ([www.teamnetorg](http://www.teamnetorg)) and go to “my teams”

Click on “Add Member”

You need to fill in the e-mail, name, a b-day, and a phone number (I just put in 1/1/2017 and the parent’s phone number as I didn’t have my grandma’s phone numbers to add)

The screenshot shows the 'Add Member' form. It has two columns of input fields. The left column contains: Email (with a note 'Email needed for login access'), First Name, Last Name, Nickname, Birthday (with a calendar icon), and Gender (Female/Male radio buttons). The right column contains: a profile picture placeholder with an 'Upload Picture' button, Phone (with a country dropdown), Admin (Yes/No radio buttons), and Roles (checkboxes for Coach, Assistant Coach, Manager, Player, Parent, and Other). At the bottom are 'Save' and 'Cancel' buttons.

They will get an invite from Demosphere and will need to select the “forgot password” to be able to log in. Then they will have access to the team site.
